The instructor did a very good job at organizing the class so that the material was understandable and clear. Professor Royal was very flexible regarding the assignment due dates. All the quizzes and exams correlated to the information from the textbook.

Her enthusiasm for the material was evident in the way she made everything a class participation

She's very talkative so if I had a question she was more than willing to answer

Instructor makes it very clear for us to know what we must do to succeed in the class

The professor was responsive to questions and concerns that students had.

-She is really good at connect w/students and is always available

-The online portion of this course is awesome.

THE INSTRUCTOR GIVES A CLEAR AND UNDERSTANDABLE INSTRUCTIONS THAT HELPED ME COMPLETE ASSIGNMENT.

The Professor is clear on what is needed to ~~fulfill~~ succeed in class.

INSTRUCTOR does well in explaining, what assignment was about and her explanation.

- responds to emails in a timely manner
- specifies how we will be graded and when assignments are due
- clarifies any misunderstandings

EXPLAINS / PRESENTS WELL.

Dr. Royal clearly stated at the beginning of class what the course was about, the structure of the class, and how we would be graded on our assignments, quizzes, etc. I like how she has everything uploaded online and how the assignments were set to be submitted online. I feel like this allowed me to get ahead on the work so that I could have more time for my other classwork. The way Dr. Royal integrates technology into the class was enjoyable and helped me learn the material better.

Interactive lectures.  
Flexibility with time in taking our quizzes. I believe her flexibility helped relieve stress and time line pressures. The work was not easy, or little, but that pace & flexibility allowed me to accomplish my goals at my pace.

She did well on ~~the~~ teaching the course a different way, which made the course more pleasant to learn.

Dr. Royal was very good with working with students to achieve their desired grade. She graded more than fairly and her assignments were tailored exactly to the material taught. 2. Please comment on what the instructor could do differently/better. (Please be specific.)

I would just say that the requirements for the annotated bibliography could be explained better.

If I didn't have to pay for it, I would take it again

NO more papers/chapter comparissons.

Instructor was great over all.

The professor could communicate better when assignments are due and their instructions by making announcements in class and not by only email.

- have more of a discussion in the beginning of the class before she starts her game activity.

It was good, just a change on the articles.

go into a little more detail on the definition

nothing

SLIDES

I think the instructor should provide an example of what she wants for the article comparison assignments so that students know how to do the assignment better.

N/A-

The instructor was really good, I wouldn't change or recommend anything differently.

The comparative articles assignment was helpful in some sense, but it could use some alteration to make it less confusing.

I would like to see less of Article comparison assignment

MORE LECTURES.

Having less article comparisons. Also splitting class activities with lectures.

CRITIC MORE ORG

Article comparisons were difficult to understand

I believe that the course should stay the same, besides maybe limit that number of article comparison essay.

Something you can do differently is maybe lecture a little

Less Article Comparisons.
