Student Comments

1. Please comment on what the instructor does well. (Please be specific.)

- Professor Royal was a great instructor. She was very flexible and just wanted us to work hard for our grade but was not rigid. Material was interesting and even though it was hard, she tried to provide us with materials to help us along the way.
- The instructor gave detailed descriptions of expectations on assignments and even provided us with examples.
- The instructor was efficient with communication. The notes provided were a big help.

2. Please comment on what the instructor could do differently/better. (Please be specific.)

- I think she did well, no suggestions.
- I would suggest that the professor learn how to organize their assignments on the Blackboard website. At times I was confused by due dates, the syllabus would state one thing but the dates on the website were different. I had to keep emailing to confirm with the professor, which got annoying.
- Online classes are hard since you have no interaction with the teacher really. I would like some kind of discussion for the online class whether it be live or a discussion forum.
