Comments Report

Student Comments

1. Please comment on what the instructor does well. (Please be specific.)

answers questions + makes class interesting

The instructor explains instructions well and is fair on grading.

She helps us interact and learn with other students. Helps us read the book in depth.

Instructor engaged students rather than preaching the duration of the course.

Actively participates with class discussions. Prepares well for class. Enthusiastic in class with subjects and students.

Communicates with the students

- Excellent facilitator
- Explains concepts well
- Enthusiastic at teaching.

makes the class an easy "A" understands material, is not what students are interested in

the instructer presents the information & regiurment well

Dr. Royal IS VERY GOOD AT CLEARLY DEFINING WHAT IS EXPECTED OF US AND APPLYING THE LEARNED MATERIALS WITH HANDS ON ACTIVITES.

Explains
goes over

clearly communicates goals

Gives plenty of opportunities to get a better grade

Teaching, lecturing, keeping it interesting

She explained the material very well and vocabulary

MAKES GRADING/GRADES UNDERSTANDABCE.

She give good amount of extra credit b/c She know this class is hard

explaining, quizzes
group projects

Very clear about what it took to obtain the grade you want. Allowed for some much needed wiggle room when it came to grading. We were treated like adults.

Teaching the subject in generalize was amazing, because I took this class 2 other times & this by far was the best !!!

Makes the course material simplistic.

2. Please comment on what the instructor could do differently/better. (Please be specific.)

other activities could be tried

What professor Royals could work is post-assignment reviews; after a class quiz, students are unsure as to what the right answers are and remain unsure as the class moves on to the next subject.

lecture

The book used was difficult to understand, poor worded, and made the class difficult.

~~HFA~~ Aplia. Down with Aplia

More class lectures

- Have the class participate in class activities with whole class instead of groups.

Lecture, instructor did 2 lectures otherwise, it felt as though the instructor did not want to take the time. instructor used class projects which felt as though she was avoiding instructing the students. effort was made so students would pass but not that they would understand the material, learn to make material connected to CRJ just having examples from book is not enough.

She could have more videos in class

WE COULD HAVE USED MORE CLASSTIME FOR CONCEPTS, BUT OVERALL WE USED OUR TIME EFFICIENTLY.

Lecture more often

~~Her~~ explain things a little slower

did everything pretty Soon

Only explain the the Main Point in the ~~&~~ textbook

NOthing

Highlight what material from the book was most vital.
Conect the material to cj more.

Nothing

No Aplig

Spend more time reviewing key terms.

3. Please characterize the nature of what you learned in this course.

Learned a lot about different research methods and each are broken

Definitions and vocabulary significant to research.

I learn many aspects of Research Methods including vocabulary

Extensive, terminology and meaning with regards to research.

Vocabulary ~~theorists research methods,~~ tests, and studies involving research methods.

Vocabulary

How to research things in the library

- On the importance of research and definitions of complex vocabulary
- Applying the research methods and techniques to various research essays.

technical terms for research methods not associated with criminal justice in any way except a few examples.

nature of the course is very class excursive extensive we do alot of participation w/ help understand the information better

I HAVE LEARNED MANY ASPECTS OF RESEARCH AND HOW TO READ SURVEYS ~~Better~~.

Research methods

I learned how research methods work

I learned alot of research methods and vocabulary

I haven't really learned anything

Differentiate Research methods

learned alot about the vocabulary of Social research. It was like a foreign language to me when I started.

How to do research methods

The basics of research methods.

4. Was the instructor open and receptive to diverse points of view expressed by students in class?
"Diverse points of view" refers to various student perspectives taking into consideration issues of race, ethnicity, gender, disability, sexual orientation, age and political view.

Yes, professor Royals is/was fairly partial to every views.

Instructor was extremely receptive to students' contributions.

Yes, absolutely

- She was very understanding and have no bad comments.
- Open to everyones views.

there was not any opportunity for these views to be expressed, so No Idea.

yes

yes

yes She was very diversed

yes, amazing instructor

yes, she was very open and willing to help

5. Additional Comments:

Enthusiastic, loud-spoken, energetic.

Great professor. I would defineatly take any of her classes again. Love the teaching style.

Great professor! showed lots of interest and enthusiasm in class.

Very Nice,

The division should re evaluate both this course and this instructor. The course doesn't have any visible connection to its relation to criminal justice. The instructor lacks a crj background. The class was tought as though we were elementary, that everyone must pass. The instructer could not provide any personal connection to the value of this class in later life. Instructor was in Room for eval.

Applia Sucks. ↖ !! , Ironically actually helpful

INTERESTING CLASS!

good class

Good class. Would take another if she taught more

It's not her fault this class/ subject is not interesting or easy to understand.

Awesome, would take more classes

good instructor that has an open mind when it comes to teaching methods. She understood that some of us have important time consuming jobs/families which require alot of our time sometimes.

Very awesome teacher, liked the different approach to teaching
